Dear Mr. Nunez,

The Town of Frederick Parks, Open Space and Trails Advisory Commission is an appointed group of citizens that advise the Town's Parks and Open Space Department, Board of Trustees and Town Mayor on all matters pertaining to the management of the Town's outdoor recreation and natural resources.

We fully support the development of a Downtown Frederick Outdoor Recreation Master Plan and this project's application for the State Outdoor Recreation Grant.

Downtown Frederick is a gem to the residents and visitors of the Carbon Valley area and the location of Crist Park and surrounding greenways at the entrance of Downtown provide for an ideal partnership between economic development of small business and outdoor recreation. The future development of the park and greenway, through a publically driven and thorough planning process, is a primary goal of this Advisory Commission in 2023.

For small communities like Frederick, financial assistance in this time of rapid population growth is critical to our mission of providing safe, comprehensive and sustainable recreational and natural resources to residents and visitors of the Town.

We appreciate the Outdoor Recreation Industry Office's opportunity with this program and ask for your consideration of our Town's proposal.

Sincerely,

Allan Gill
Interim Chairperson – Frederick Parks, Open Space and Trails Advisory Commission
